| 2012 | D1 | M. Pompili | L. Calcara |
| 2016 | D2 | D. Dondossola | A. Foschini |

Profile of the SC members

Due to the role of the SC in the management of the technical activities the SC member is expected to have a good CIGRE background, with a fair knowledge of the working procedures of CIGRE.

A good knowledge of the techniques relevant to the field of activity of the SC is necessary to play an active part in the life of the SC.

As the SC member represents also the views of his country he should have in his country a position which allows him to be aware of the technical context in his country (needs of the country, experts available...)

An experience as an expert of a WG and a position as the leader of a national panel (or "local SC") is the ideal curriculum.

The capability to express his ideas in English is highly desirable.

Attendance

There is an expectation that a regular member will attend every meeting of the SC. An observer member is not expected to attend all meetings. A member (Regular or Observer) has to:

- Complete any reports for which he is responsible, so that the work of the SC will not be impeded.
- If possible arrange for a replacement expert from his country to attend in his place and on his behalf (it applies for a regular member).

When a regular member misses meetings the Chairman will consider recommending not reappointing him.

The term of office of members is two years, to be renewed no more than twice. In the case of exceptionally active members a further two-year extension may be granted once only.
